Professional Summary

Frontend Engineer with 3+ years of experience delivering responsive, production-ready web and mobile interfaces with **React, Next.js, TypeScript, and React Native**. Focused on **scalable UI architecture**, reusable components, API integration, accessible design, and **performance optimization** for healthcare, ERP, and client-facing products,also familiar with **Node.js, Python**, and backend API development.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL
Frontend: React.js, Next.js, React Native, Expo, Redux Toolkit, Zustand, Context API, React Query, Tailwind CSS, Material UI, Kendo UI, Storybook
Backend & Databases: Node.js, Express.js, FastAPI, REST APIs, GraphQL, PostgreSQL, MySQL, MongoDB, JWT
Testing & Tools: Jest, React Testing Library, Git, GitHub, Postman, Docker, Vite, Webpack, CI/CD, Vercel, Firebase, Clerk
Practices: Responsive Design, Accessibility (WCAG), SSR, Code Splitting, Lazy Loading, SEO, Core Web Vitals, Cross-Browser Testing, Code Reviews, Agile, Debugging, Refactoring, Test Generation, Prompt Engineering, Code Generation.

Professional Experience

Frontend Engineer Jan 2025 – Present
Mimsys Technologies | Bengaluru, India

- Built **50+ reusable React, Next.js, and TypeScript components**, data grids, and dashboards across 3+ healthcare and ERP modules, reducing UI development time by **40%**.
- Integrated **REST APIs**, .NET backend services, **JWT authentication**, and **role-based access control (RBAC)** for secure clinical workflows across 3+ patient-facing modules.
- Implemented **Redux Toolkit and Context API** state management, form validation, and error-boundary handling, reducing production runtime errors by **30%**.
- Delivered **accessible, cross-browser** appointment, medication, and patient-management interfaces, reducing reported UI bugs by **25%**.
- Built a **hospital insurance platform** using React, Next.js, TypeScript, Node.js, and Express.js for claims processing, payment tracking, audit logging, and role-based access.

Software Engineer & Frontend Developer Oct 2023 – Jan 2025
MN Service Providers | Bengaluru, India

- Delivered **5+ internal and client-facing platforms** using React, TypeScript, and Tailwind CSS with responsive, component-driven architecture, cutting delivery time by **20%**.
- Built **reusable UI libraries**, API-driven dashboards, and dynamic forms integrated with token-based authentication flows.
- Maintained Git branching, pull requests, and code reviews; collaborated with backend and QA teams in **Agile** sprints.
- Diagnosed performance bottlenecks, UI regressions, and cross-browser issues, reducing bug turnaround time by **35%**.

Web Developer & Designer Oct 2022 – Oct 2023
IIFA Multimedia | Bengaluru, India

- Designed and developed **responsive, mobile-first websites** using HTML5, CSS3, JavaScript, Bootstrap, and REST API integrations.
- Improved page load times by **30–40%** and SEO scores through Lighthouse and PageSpeed Insights performance optimization.

Personal Projects

Task Inventory | React, TypeScript, Vite, Tailwind, FastAPI, SQLAlchemy, PostgreSQL Live App | GitHub

- Built a **full-stack task and team management app** with a responsive React and TypeScript interface and FastAPI REST backend using SQLAlchemy and PostgreSQL.
- Implemented **bearer-token authentication**, task CRUD, search and filtering, task assignments, team membership, and role-based user and team administration, with dashboard charts, responsive layouts, light/dark themes, and action notifications; enforced **role permissions** in backend routes.

Subscribly | React Native, Expo, Clerk, NativeWind GitHub

- Developed a cross-platform subscription management app with Expo Router navigation, reusable mobile UI, protected routes, and persistent authentication sessions.

Cric Face Merchandise | React, Redux Toolkit, REST APIs GitHub

- Built a responsive e-commerce storefront with product listings, cart and checkout workflows, API-powered product data, and optimized Redux state updates.

Education

Master of Computer Applications (MCA) – Chandigarh University Aug 2025 – Aug 2027
Bachelor of Computer Applications – University of Kashmir Apr 2019 – Dec 2022
